

## Our RAPIDS compliance courses provide a creative solution to delivering necessary and tailored information in a timely and cost-effective manner.

### What is RAPIDS Training?

RAPIDS™ stands for Ready, Adaptable, Portable, Interactive Delivery system — a unique approach to compliance training that is creative, up to date, and delivered fast.

### Ready

Our "ready-to-go" compliance courses cover the following key topics:

- Anti-Bribery: Foreign and Domestic
- General Ethics and Compliance
- HIPAA
- Labeling and Product Promotion
- Medical Affairs Policies
- PhRMA Code / AdvaMed Code
- Sunshine Act and State Law Reporting

Our core content can be divided into modules for specific functional areas or configured in portions as small as one minute to as long as 30-45 minute computer-based training.

### Adaptable

From the Learner's perspective, RAPIDS appears fully customized to your organization, including company specific policies, terminology, systems, messages from leadership, and branding elements (e.g., logo, colors). The courses are structured so that company-specific information can be easily populated based on responses provided at kickoff.

All of our courses can be fully reviewed and edited by client teams, including Legal. Once approved, we record and embed professional narration, including production-quality audio and video scenarios.

### Portable

RAPIDS training courses are compatible with mobile devices including the iPad™ and smartphones.

### Interactive

RAPIDS are engaging and practical. All courses include customizable interactive exercises, including "spot the violation," software simulations, knowledge assessments, and "how would you respond?" scenarios.

### Delivery System

Potomac can provide RAPIDS in popular formats including Flash and HTML 5. RAPIDS training can be tailored to function on a variety of Learning Management Systems and is both SCORM and AICC compliant.
