

Demonstrating effective training requires measuring knowledge, not completion. JogIT helps learners retain information through Just-in-Time bursts of content.

## Supplement Existing Training

- Use knowledge checks to measure retention
- Reinforce key concepts through flash cards
- Provide Just-in-Time microlearning

## Allow users to place out

- Test knowledge before training
- Save time for already experts

## Make training fun

- Maintain engagement through competition
- Supplement training with non-compliance topics

## Show progress

- Track training results over time
- Share reports
- Build your case for an effective Compliance Program!

## Use data to evaluate training

- Evaluate effectiveness
- Measure comprehension from live training and read & acknowledge policies
- Demonstrate a well-designed risk-based program

## Identify risks

- Identify poorly understood concepts
- See gaps in existing training
- Identify areas for monitoring
